**DENIES NEW HAVEN'S PLAN FOR NEW BONDS**

Central New England Scheme Declared to be Peculiar by Public Service Board.

\$12,910,000 ISSUE SOUGHT

Albany, Aug. 16.—Charging that the New York, New Haven & Hartford Railroad company was endeavoring to put out other bondholders than itself from the benefits of the plan for refunding the debts of the Central New England Railway Company, the Public Service Commission in the Second District has refused an application for consent to the issuance of a \$12,910,000 mortgage on the latter company's property and the issuance of bonds thereunder for \$12,910,000. This was the New Haven's latest reorganization plan for this property.

In its opinion, the commission points out that the New York, New Haven & Hartford Company owns \$1,835,771 of the \$12,910,000 of the capital stock which the Central New England has outstanding, and so controls the line. Of the \$12,910,000 of bonds, which the company has issued, the New Haven holds \$9,989,123 and outsiders \$2,920,877.

Included in this indebtedness are income bonds amounting to \$7,250,000, of which the New Haven Company owns \$6,329,123. These bonds have been outstanding ten years and have paid no interest. Another issue of income bonds for which the Central New England is liable has been outstanding since 1887 and no interest has ever been paid. This issue amounts to \$1,164,500, of which the New Haven Company owns \$1,164,500.

The commission explains that it is proposed to issue interest-bearing bonds bearing 4 per cent, in the place of the income bonds owned by the New Haven Company except that this company is not to exchange about \$1,000,000 of its income bonds for interest-bearing bonds at this time. Other parties have no right under the proposed mortgage to exchange their income bonds for interest-bearing bonds.

In addition to getting new bonds for its old ones, according to the report the New Haven company wanted also to get new bonds on unpaid interest coupons amounting to \$468,282, and for \$131,377, which it claimed as interest on the amount of the unpaid coupons, the whole amounting to \$600,000.

It is declared that the proposed mortgage, while ostensibly drawn to refund all the outstanding indebtedness, is so drawn that no bonds can be issued by the trustees unless they are presented by either the Central New England or the New Haven Company. This means the New Haven Company only, in effect, since it wholly controls the other. The amount of bonds owned by outsiders which cannot be refunded as of right is \$3,813,771.

In making its decision the commission in a detailed opinion written by Chairman Stevens, declared that:

1. That the applicant (the Central New England) is not legally indebted for the interest upon the unpaid coupons.

2. That no sufficient reason has been shown why unpaid interest should be made a capital obligation of the applicant.

3. That a refunding scheme which embraces the securities held by only creditor and that creditor in control of the corporation through stock ownership cannot be approved.

4. That under all the circumstances of the case the conversion of the income bonds held by the New Haven Company into fixed rate interest-bearing bonds cannot be approved.

The last paragraph of the opinion reads:

Some people tolerate roaches and water-bugs in the kitchen, in vain belief that the rest of the family will not find it out. Perhaps they will not, but suppose that some day you would serve a roach in the pie: perhaps then you would wish that you had spent 20c for a box of Cyrus Roach Powder.

**BRIDGEPORT FIRM APPEALS TO U. S. ATTORNEY GENERAL**

Halsey &amp; Co., Affected by Ruling of Loeb Under New Tariff Law.

**RACE ACROSS THE SEA**

R. B. Halsey & Co., the shirt makers of this city are in a position to lose or make upwards of \$2,000 upon the decision of the attorney general of the United States as to when the new tariff bill went into effect. R. B. Halsey, Jr., was a passenger aboard the S. S. Pennsylvania which arrived in New York on August 5. On the same ship was a large shipment of goods that Mr. Halsey had purchased in Ireland and Scotland. The Halsey ship and a good portion of the Pennsylvania's cargo consisted largely of goods that would be affected under the new Payne tariff law.

All day on August 5th Captain Schmidt of the Pennsylvania was in communication with New York by wireless and he was advised to spare no coal to make port before midnight. This he did arriving at quarantine shortly before 10 o'clock. All of the shippers were jubilant as they believed they had got in under cover, and would each save several thousands of dollars. But Collector Loeb ruled that they lose as the custom house closed at 4:30 on August 5.

Halsey & Co. through their brokers have taken an appeal to the attorney general claiming that it was 5:07 o'clock on August 5 before President Taft signed the tariff bill, and contending that it did not go into effect until the morning of the following day. Further, the brokers have \$50,000 at stake claim that Collector Loeb ordered the custom house closed at 4:30 o'clock on August 6 and that the Pennsylvania was not allowed to enter dock on that day although she could have done so if permission had been given.

**"ROD" CURTIS LEAVES HIS ESTATE TO WIFE**

Excepting Only \$2,000 Which is Given to Trinity Episcopal Church.

With the exception of \$2,000 which is given to Trinity Episcopal church of Southport, all of the estate real and personal left by the late Roderick Perry Curtis, the local manufacturer, goes to his widow, Louise W. Curtis. Elmore S. Banks, probate judge of Fairfield, received the testament for probate and has named as executor, Hetzel and Arthur O. Jennings of Southport as appraisers. The widow and one of the sons of the testator, E. L. Wells Curtis, are named as executors. The other children are Louis Perry and Louise Wells Curtis, minors. It is said that the estate will inventory not far from \$350,000.

Mr. Curtis was a member of the firm of Curtis & Curtis whose plant is located in this city. His death followed from injuries received in an auto mishap the route being run into by a testing car.

**AUTOS ON LONG RUN TO ARRIVE HERE SEPT. 27**

Bridgeport instead of New York may be the stopping place on the night of September 27 for the Munsey reliability run, which will reach here that day with about forty cars and two hundred passengers.

The Munsey run is from Washington to Boston and return, September 21 to 23. The route will be from Washington to Baltimore, Md., York and Lancaster, Pa., Philadelphia, Pa., New York City, Bridgeport, New York, Atlantic City, Philadelphia and Baltimore again, back to Washington. The original schedule called for a jump from Boston to New York in one day, by the path finding car, which arrived here last night and was quartered at the Hotel Stratford, found so many variations in the route due to the building of new State roads in Massachusetts and Connecticut that it may be necessary for the tourists to stop over in Bridgeport in order to avoid too great a strain on the drivers.

Seventeen entries have been received for the run, which will practically be a Glidden race for three handsome trophies. Twelve different makes of cars are already represented by factory nominations, but the run is expected to attract more private entries than any similar event ever held in the east or west.

Those in the path finding party now stationed at the Stratford are: Thomas S. Rice, a Washington newspaperman, who is in charge; George A. Deatel, business manager; Dick Taylor, photographer; and Karl Schnorr, driver. They will remain here until they proceed to New York to-morrow morning.

**Lieut. Addis to Fight Colonel's Will**

New Haven, Aug. 16.—That the will of the late Colonel Thomas Emmet Addis, who left nearly \$100,000 to public charities, will be contested, seems assured. Lieutenant Emmet Addis, stationed at Fort Ethan Allen, without any provision at all by the terms of the will, arrived in this city yesterday, and is now staying at the home of a relative, Harry Young of 81 Henry street.

Lieutenant Addis said last night that he did not wish to make any statement at present beyond the fact that there would be a fight and that he placed the matter both in his own behalf and on the behalf of his sister, Mrs. Frances Crowley of Hartford, the niece who was also named in the will, in the hands of Isbell & Booth, who have been retained as attorneys in the case.

**CASTORIA**

Bears the Signature of *Chas. H. Johnston*

No Smoke Nuisance. The fact that soft coal is not used on the steamer Park City this season is very much appreciated by the traveling public. Ladies and children who go on the "every week day" matinee excursions can therefore go dressed in snowy white with the assurance of a presentable appearance when they return home. There is only three more weeks in which to enjoy these delightful matinee excursions to Port Jefferson. The steamer leaves the wharf at the foot of Fairfield avenue at 4:30, returning to New Haven at 4:30. You should avail yourself and family of this pleasant sail across the Sound—an ideal outing trip.

**E. H. DILLON & CO.****THE THEATRES****POLI'S**

A great treat is promised at Poli's for the present week. "The Regeneration" will be the bill, and a great production is promised. This play deals with the life on the Bowery, and has a story of intense human interest. The central figure in this play is East Side types, and the plot is one that is virile and gives great scope to the actors who carry the roles. Mr. Ince is very happily cast as "Owen Conway," and it can be promised that he will give a finished performance. He no doubt has the best part he has had for a long time. The play is a story of a man who is a leader of a gang of thugs, and steeped in crime. He will stoop at nothing to gain his ends. The play is a story of a man who is a leader of a gang of thugs, and steeped in crime. He will stoop at nothing to gain his ends. The play is a story of a man who is a leader of a gang of thugs, and steeped in crime. He will stoop at nothing to gain his ends.

**JACKSON'S**

Eddie Leonard and his matchless company of 60 of the leading minstrel lights of the American stage will appear at Jackson's theatre to-morrow and Wednesday evening, with a bargain matinee, Wednesday. Eddie Leonard's institution of the "Red Mill" at Jackson's theatre is a most entertaining and novel feature. His aim being to present fashionable minstrelsy and to make his company the most popular and successful of the season. The story which the Leonard company has met with this season seems to indicate that this astute manager and comedian is giving the public just what the doctor ordered in this delightful form of entertainment. The voice of the press throughout the land is without exception full of praise for the superb production.

"The Top O' The World" which won continued favor at the Casino and Majestic Theatres, New York City, comes to Jackson's theatre for a return engagement Friday evening of this week, with Fred Bailey and Ralph Astor. The story of the "Top O' The World" is a most entertaining and novel feature. His aim being to present fashionable minstrelsy and to make his company the most popular and successful of the season. The story which the Leonard company has met with this season seems to indicate that this astute manager and comedian is giving the public just what the doctor ordered in this delightful form of entertainment. The voice of the press throughout the land is without exception full of praise for the superb production.

Spiders have been observed in Madras which live in a sponge-like nest of branching network, penetrated internally by canals of communication and furnished with a number of external apertures. The nests, which may be attached either to the tips of branches or to leaves of the prickly pear, are ashy gray in color and constructed of leaves, with an external covering of the usual sticky threads. The spiders are similar in color to their nests. Their inconspicuous, sheet-like webs radiate in all directions, and as many as five or six nests, connected by intermediate webs, may be found on a single plant. The connecting webs, which are very strong, often form tubular bridges between the nests. From forty to a hundred spiders may be found in a single nest, and males and females inhabit the same nest in the proportion of about seven to one.

**TALK NO. 393**

There are thousands of children in school who ought to wear glasses. Eyes which are naturally weak always become worse under the strain of constant study. Headaches, squinting the eyelids, holding the book close to the face, all are symptoms of the eye-strain and overwork. Children are frequently marked down in their studies through inability to make out characters upon the blackboard. The eyes of every pupil in the schools should be carefully examined at least once a year. You cannot afford to be indifferent in this matter. By giving attention to slight defects now their school work will not only be lightened, but the necessity of wearing glasses constantly in after years may be avoided. We will be glad to examine your children's eyes at any time. We make no charge for such service. We will tell you in what condition we find them and will advise you as to the necessity of wearing glasses.
